

HARRINGTON-MSTP SCHOLAR AWARD AT CASE WESTERN RESERVE UNIVERSITY

FUNDING OPPORTUNITY

OVERVIEW

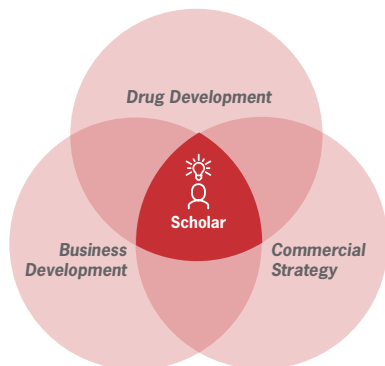

The Harrington-MSTP Scholar Award recognizes Case Western Reserve University Medical Scientist Training Program (MSTP) students whose research has shown **innovation, creativity, and the potential for progressing from scientific discovery to a medical therapy**. The award includes milestone-driven funding, as well as research and drug development support, to advance the student's work towards the clinic.

SUCCESSFUL APPLICANTS WILL RECEIVE:

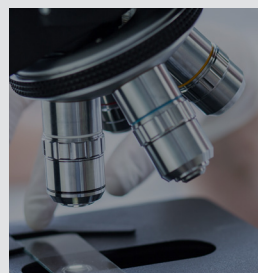

- Up to \$100,000 in milestone-driven grant funding for one year
- Drug development expertise and project management support for one year (potentially renewable for a second year)
- Opportunity to qualify for up to \$750,000/program upon reaching commercially viable milestones
- **NOTE: IP rights are retained by the awardee or their institution.**

THE HARRINGTON ADVANTAGE

A personalized therapeutics development team, including former leaders from the pharma industry and a dedicated project manager, surrounds each Scholar with expertise to de-risk and advance their discovery towards the clinic.

PROPOSALS OF INTEREST

- Novel, validated targets
- Any therapeutic modality
- Discoveries demonstrating rigorous science, creativity, innovation and potential for clinical impact

ELIGIBILITY

Enrolled as a Case Western Reserve University Medical Scientist Training Program (MSTP) student in the MD/PhD Dual program, with their own quality, creative and innovative work
